

To Whom It May Concern

I am pleased to write this letter of recommendation for Donia Almadani, who was a student in my Computer Networks course. Donia performed exceptionally well, earning an A+ in the course and consistently demonstrating a strong command of the subject matter.

Throughout the course, Donia exhibited a deep understanding of the concepts related to computer networks, including network protocols, architecture, and security. Her coursework and assessments were always completed with a high level of precision and insight, reflecting her technical aptitude and attention to detail.

I am confident that Donia's strong technical skills, combined with her motivation and work ethic, will make her a valuable asset in any academic or professional setting she chooses to pursue. I highly recommend her for any opportunity that requires a strong foundation in computer networks and a commitment to excellence.

Please feel free to contact me if you need any further information.

Sincerely,

Dr. Ahmed Alhazmi

Assistant Professor

Department of Cybersecurity

College of Computing

Umm Al-Qura University
