To Whom it May Concern,

It is my great pleasure to write this recommendation letter for Donia Almadani in my capacity as Assistant Professor, for her study of Software Engineering at the University of Umm Al-Qura, Computers College. I have taught Ms. Almadani during the first semester of the 2023. This course requires a high degree of analytical understanding, writing ability and wide range of software engineering skills. Ms. Almadani has distinguishably demonstrated that she can meet the module requirements and fulfilling its objective.

Overall, Ms. Almadani is highly intelligent and has good analytical skills. The project she submitted for the fulfillments of this subject illustrates her ability to critically engage with the material studies and present this understanding in skillfully written essays. Ms. Almadani has worked with her classmates in both inclusive classrooms or individually and offered a great deal of intellectual creativity which made her very distinct from the majority of her peers.

Ms. Almadani has excellent communication skills. Her written work and oral presentation demonstrate the capability of being precise, concise, and clear when delivering. On a leadership level, she liaised between me and her classmates and executed this role in a highly professional manner. Not only the liaison role she excels, but her leadership also included the frank negotiation and mediation role which greatly benefited the students and entire teaching environment.

Finally, if I can be of any further assistance, or offer you more information, please do not hesitate to contact me.

Yours sincerely

Dr. Idrees Alsolbi
Assistant Professor
